Paper 44
Filed: 29 January 2009

UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE BOARD OF PATENT APPEALS
AND INTERFERENCES

Yeda Research and Development Co. Ltd.,
Junior Party
(Patent 7,108,999,
Inventors: David Wallach, Mark Boldin,
Eugene Varfolomeev and Igor Mett,),

v.

The Regents of the University of Michigan,
Senior Party
(Application 08/443,982
Inventors: Vishva M. Dixit and
Karen O'Rourke).

Patent Interference 105,545 (RES)
(Technology Center 1600)

Redeclaration - Bd.R. 203(c)

- 1 In an e-mail dated January 29, 2009, the parties suggest that the count
- 2 has a typographical error. Specifically, the word "intercellular" should be
- 3 "intracellular." A review of the record shows that the parties are correct in
- 4 that the count should state "intracellular."

This interference is redeclared with the following Count 3:

Count 3

An isolated polypeptide having the sequence of Seq. ID No. 2 of Patent 7,108,999 or Seq.ID No. 2 of Application 08/443,982 or a fragment thereof that

1. binds the intracellular domain of the FAS

receptor; and

2. modulates or mediates the cellular function of AS receptor.

The conditions of this interference otherwise remain unchanged.
